OBJECTIVE

Results-oriented software developer with hands-on experience in **MERN Stack**, **Machine Learning**, and strong foundations in **Data Structures and Algorithms**. Seeking an opportunity at NTTDATA to apply **problem-solving skills**, **scalable system design**, and **collaborative development practices** to deliver high-impact client solutions.

SKILLS

Programming Languages: C, C++, Java, Python, Sql .

Web Technologies: HTML5, CSS, JavaScript, Node.js, Express.js, React.js.

AI/ML: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, TensorFlow, Keras, LangChain

Behavioral Skills: Problem Solving, Team Collaboration, Adaptability

EDUCATION

Maharaj VijayaRam Gajapathi Raj College Of Engineering **2022 – 2026**
Bachelor of Technology in Computer Science *(CGPA: 8.71)* Vizianagaram, AP

Aditya Junior College **2020 – 2022**
Higher Secondary Education *(Percentage: 93.7%)* Rajahmundry, AP

EXPERIENCE

Web Developer Intern | Aquarlabs, Vizag **Aug 2025 – Nov 2025**

- Built and integrated front-end components using **React.js** and back-end APIs with **Node.js/Express.**
- **Optimized application performance**, enhancing load times and improving **user experience** across devices
- Participated in code reviews, **Agile sprint planning**, and contributed to scalable architecture decisions.

PROJECTS

Online Coding and Skill Development Platform — *MERN Stack* [] **Apr 2025 – Aug 2025**

- Built a **scalable platform** with **coding courses, learning paths, and certificates**
- Integrated **quizzes, contests, leaderboards**, and **activity heatmaps** to enhance engagement
- Enabled **multi-language coding** through an **online compiler**
- Implemented **secure login** and **payment system** for premium subscriptions

Customer Segmentation Using K-means Clustering — *Python, Scikit - learn* [] **Nov 2025**

- Built an unsupervised customer segmentation model using K-Means clustering on retail customer data.
- Used EDA and Elbow Method to select optimal features and cluster count. clustering results into actionable business strategies through clear visualization and interpretation
- Successfully classified customers into five distinct segments, enabling data-driven targeting and personalized marketing strategies.

CERTIFICATIONS

NPTEL Domain Certificate in Programming : (Link)
NxtWave Industry Ready Certificate : (Link)

ACHIEVEMENTS

- Winner of Inter-College Hackathon 2025
- Awarded Best Project of the Year by Institute

OTHER LANGUAGES AND INTERESTS

Languages Known: English (Fluent), Telugu (Fluent)
Interests: UI/UX Design, Competitive Programming ,PhotoGraphy.
