OBJECTIVE

Results-oriented software developer with hands-on experience in **MERN Stack**, **Machine Learning**, and strong foundations in **Data Structures and Algorithms**. Seeking an opportunity at Deloitte to apply **problem-solving skills**, **scalable system design**, and **collaborative development practices** to deliver high-impact client solutions.

SKILLS

Programming Languages: C, C++, Java, Python, Sql ,Java Script.

Tools & Technologies: MERN Stack, **AI/ML**, GitHub.

Behavioral Skills: Problem Solving, Team Collaboration, Communication, Adaptability

EDUCATION

Maharaj VijayaRam Gajapathi Raj College Of Engineering — **2022 – 2026**
Bachelor of Technology in Computer Science *(CGPA: 8.71)* — Vizianagaram, AP

Aditya Junior College — **2020 – 2022**
Higher Secondary Education *(Percentage: 93.7%)* — Rajahmundry, AP

Sri Sadguru Vidhyalayam — **2018 – 2020**
Secondary Education *(Percentage: 99%)* — Rajahmundry, AP

EXPERIENCE

Web Developer Intern | Aquarlabs, Vizag — **Aug 2025 – Nov 2025**

- Built and integrated front-end components using **React.js** and back-end APIs with **Node.js/Express.**
- **Optimized application performance**, enhancing load times and improving **user experience** across devices
- Participated in code reviews, **Agile sprint planning**, and contributed to scalable architecture decisions.

PROJECTS

Online Coding and Skill Development Platform — *MERN Stack* [] — **Apr 2025 – Aug 2025**

- Built a **scalable platform** with **coding courses, learning paths, and certificates**
- Integrated **quizzes, contests, leaderboards**, and **activity heatmaps** to enhance engagement
- Enabled **multi-language coding** through an **online compiler**
- Implemented **secure login** and **payment system** for premium subscriptions

Blood Cell Type Image Classification — *Python, TensorFlow, Keras* [] — **Nov 2025**

- Built a **MobileNetV2-based transfer learning model** to classify **blood cell types**
- Preprocessed **12,500 images** with **data augmentation** to improve generalization
- Achieved **94.5% validation accuracy**, evaluated with **confusion matrix** and **classification report**

CERTIFICATIONS

NPTEL Domain Certificate in Programming : (Link)
NxtWave Industry Ready Certificate : (Link)

ACHIEVEMENTS

- Winner of Inter-College Hackathon 2025
- Awarded Best Project of the Year by Institute

OTHER LANGUAGES AND INTERESTS

Languages Known: English (Fluent), Telugu (Fluent)
Interests: UI/UX Design, Competitive Programming ,PhotoGraphy.
